

Scarab Sweepers Brexit Statement

1st May 2019

Scarab Sweepers Ltd works with customers and suppliers both within and outside of the EU, and therefore we are keenly interested in the outcomes of Government negotiations with regard to exiting the EU.

Staff within Scarab is working hard to identify, manage and mitigate the business impact anticipated under a 'no deal' scenario; minimising any potential negative impacts on our machine, service and product provision. We continue to focus on ensuring that customers retain a high level of service regardless of the nature of our departure from the EU.

Within the organisation, we are developing revised processes where required, as well as communicating closely with our supply chain, to pre-empt any potential delays and shortages as a result of new trading arrangements.

We are monitoring the situation closely and will continue to do so, seeking expert advice and guidance from third parties where required.
