

# AFTER SALES

Experts in providing maintenance, repair solutions and genuine Scarab parts for environmental cleaning products.

# MARKET LEADING AFTER SALES SUPPORT

Dear Customer,

We would like to thank you for purchasing a Scarab product. Our After Sales team are Scarab's front-line ambassadors, we provide you with a high level of customer support for the lifetime of your Scarab product.

We are proud to have long-serving, dedicated team members with a wealth of Scarab product experience who understand the important role of a sweeper in your operation. Our team will respond quickly to your needs to ensure optimum reliability.

This After Sales information booklet will provide you with all the contact information you will require from warranty registration, parts and field service support, training packages and extended warranty cover.

As your sweeper is a complex, specialist product, we are pleased to offer a full range of repair and maintenance contract packages to suit your needs.

Please do not hesitate to contact one of our team members who will be happy to answer your questions. We look forward to working with you.

*A Farley*

## GENUINE SCARAB PARTS

In 2019, the After Sales department moved into a bespoke unit on the Scarab Sweepers site to house more parts and offer even greater support to our clients.

We hold extensive stock of consumable and replacement parts with varying delivery options to suit your needs. To ensure that you receive and retain the best quality and performance of your Scarab machine, only replace your parts with Genuine Scarab Parts.

An electronic, **Illustrated Parts Catalogue** is provided to you when the machine leaves the factory – inside here, you will find reliable information about the spare parts and consumables available to your machine.

To download the latest **Illustrated Parts Catalogue** for your product for free, please visit the Scarab Sweepers website: [www.scarab.fayat.com/downloads](http://www.scarab.fayat.com/downloads)

VISIT THE SCARAB SWEEPERS WEBSITE TO STAY UP TO DATE WITH THE LATEST PARTS PROMOTIONS

## OUR TEAM

Our After Sales team are Scarab Sweepers' front-line ambassadors that will provide you with a high level of customer support for the lifetime of your vehicle.

We are proud of to have a long serving, committed team of employees that all have an arsenal of dedicated Scarab product knowledge. As a result of this, each of our departments are designed to help you get optimum performance out of your Scarab product.

Each of our engineers is directly employed by Scarab, which ensures that every member of our team is equipped with the specific knowledge needed to keep your product running for longer.

What's more, with a minimum of 40 hours training undertaken by our engineers each year, we ensure that our employees stay up to date with the latest industry developments.

### REQUEST A FIELD ENGINEER IN THE UK

If you need to request a Field Engineer, please visit [www.scarab.fayat.com/aftersales](http://www.scarab.fayat.com/aftersales) or contact our Service Desk:

**Tel:** +44 (0)1622 831006 and press option 2  
**Email:** [servicedesk@scarab.fayat.com](mailto:servicedesk@scarab.fayat.com)

#### Service Desk Opening Hours:

**Monday – Friday** 08.00 – 17.00

For customers outside the UK, please contact your local Scarab distributor – all listed on the Scarab website.

Servicing your Scarab Sweeper is important to keep your vehicle performing at its very best and essential in keeping your warranty valid.

It is the customer's responsibility to ensure that machine services are carried out at the correct scheduled times, to comply with the warranty terms and conditions (except for customers who have a service contract with Scarab Sweepers Ltd. or their appointed representatives).

The maintenance schedule should be carried out in conjunction with the operator's daily and weekly checks. The amount of time to carry out the servicing will be greatly increased where operator checks are carried out.

A service reminder is programmed into the CANbus screen and a  symbol will be displayed at service intervals.

Should you require Servicing or Repair and Maintenance contracts for your vehicle, please visit [www.scarab.fayat.com/aftersales](http://www.scarab.fayat.com/aftersales) or get in touch with our Service department:

**Tel:** +44 (0)1622 831006 **Email:** [servicedesk@scarab.fayat.com](mailto:servicedesk@scarab.fayat.com)

In addition to this, contact our Parts department to find out more about our Service and Wearing Kits available at discounted rates.

**Tel:** +44 (0)1622 831006 **Email:** [partsdesk@scarab.fayat.com](mailto:partsdesk@scarab.fayat.com)

# MADE IN BRITAIN®

With an array of machines offering municipal, construction and off-highway solutions around the world, Scarab Sweepers are global leaders in the design and manufacturing of cleansing products. Coupling this with unrivalled After Sales support, Scarab Sweepers is proud to tell the world its industry leading products and services are Made in Britain.

# WARRANTY

## HOW TO ACTIVATE YOUR SCARAB WARRANTY

To provide you with the best warranty cover for your Scarab Sweeper, you are required to activate the warranty on delivery of your new machine.

Please visit the After Sales section of the Scarab Sweepers website or call the After Sales department on **+44 (0) 1622 831006**, to complete the activation form.

## SERIAL NUMBER PLATE LOCATIONS

In order to activate your warranty, you will need the serial number of your machine. The location of the serial number of each machine can be found listed below:

### MERLIN & MAGNUM RANGE

The serial number plate is located on the left-hand side of the subframe, on the rear face of the suction spigot mounting and inboard of the suction nozzle lift ram.

### M65T & MAVEN 65

The serial number plate is located on the left-hand side of the subframe, below the hydraulic valve block cabinet.

### MINOR 25 (M25H)

The serial number plate is located on the panel below the left-hand seat.

### MC210

The serial number plate is located to the left side of the left-hand seat.

### RAVO

The serial number plate is located below the right-hand seat.

# TRAINING

## OPERATOR TRAINING

The Operator Training Course offered by Scarab Sweepers takes place over one day and is designed to encompass all aspects of machine operation.

By the end of the course, the operator – dependent on aptitude – should have an understanding of the sweeping controls, theory of machine operation, operator maintenance, setting and brush selection for varying operations, health and safety of operator, their colleagues, the general public and third party property. Operator courses are provided free of charge with a

newly purchased machine.

A Scarab operator certificate is issued on satisfactory completion of this course.

**As well as offering training on new machines, courses on existing/older machinery can be provided. To find out more please contact our Sales office:**

**Tel:** +44 (0) 1622 831006

**Email:** [scarab@scarab.fayat.com](mailto:scarab@scarab.fayat.com)

## TECHNICAL TRAINING

Our Technical Training Courses take place over 1 to 3 days – dependant on the machine/model – and are designed for competent service technicians who have a working knowledge of hydraulic and electrical services.

Delegates completing this course will gain a full understanding of the controls and correct operation of the machine, set-up and fault diagnosis of sweeping equipment, operation of the CANbus system, safety awareness and safe working practices. All our engineers undergo a minimum of 40 hours of training each year to ensure they are best qualified to instruct others.

**Get in touch to organise Technical Training:**

**Tel:** +44 (0) 1622 831006

**Email:** [TechUK@scarab.fayat.com](mailto:TechUK@scarab.fayat.com)

**WE ARE AN IRTE Accredited workshop**  
the industry standard

**Scarab Sweepers is proud to be an ISO 9001 recognised company**

The ISO 9001 standard provides a systematic frame work for integrating environmental management practices by supporting environmental protection, pollution prevention, waste minimisation, as well as energy and materials consumption reduction.
